MODERATE STATEMENT.

McDonald Replies to Article on Brownsville Affair.

Austin, Sept. 15.—Captain W. J. McDonald, former state ranger, has made public an open statement in answer to the recent article from a Brownsville paper, touching on the Brownsville affair. The Brownsville paper criticizes the story recently written by Albert Bogelow Paine in a magazine as being far from the truth. McDonald says that the article of Paine was a very moderate statement of the facts of the affair as connected with the outrage of the negro soldiers. McDonald characterizes as false the assertion that he kept dodging the grand jury. He then proceeds to give the facts in the case. He also declares local officers had nervous prostration and lack of backbone.

The adjutant general's department has heard nothing officially as to the doings of a mob at Brenham. Two state rangers were detailed there, but nothing has been heard from them.

State Superintendent Cousins addressed a communication to all book dealers in the state that all contractors for furnishing text books under the recent adoption are required to take in exchange any books offered by patrons of public schools, provided only that they were in use last year.

A telegram received by State Health Officer Brumby from Acting Surgeon General Glenn at Washington, advised the health officer of the second case of yellow fever at Havana, Cuba.

Dr. Brumby immediately put in effect a stringent quarantine against Havana. Passengers from there will be detained five days from the date of departure. Heretofore they were allowed to proceed without interruption.

Twenty-six applicants took the examination before the state dental board. The board is composed of Bruce Vredenburg, president, Beaumont, W. H. Robert, Jr., Denison; W. F. Robertson, Gonzales; John A. Wicks, Ballinger; Thomas J. Snell, Cooper, and R. H. Waller, Gonzales.

The People's Dry Goods company of Dallas, Fort Worth and Sherman, capital stock \$30,000, has been chartered. Secretary of State Davis has notified all county judges to delay the printing of the official ballots pending the decision whether the independence party is entitled to a place. Mr. Davis will wait a few days for the certificate of nomination, then refer the matter to the attorney general.

Mayor Sweeney and Gehee of El Paso are here securing the approval of the attorney general to an issue of \$500,000 of El Paso street, sewer, school and other improvement bonds.

Kansas at Albany. Albany, West Australia, Sept. 15.—The battleship Kansas, which remained behind at Melbourne to pick up stragglers from the American fleet, sailing from that port several days after her sister ships, arrived here Tuesday. She encountered tempestuous weather.

The governor of West Australia, Admiral Bedford, reviewed 2,500 blue-jackets and marines from the American warships, and in common with thousands of citizens who gathered to witness the review, was greatly impressed with the fine body of men.

Lack of Evidence. El Paso, Sept. 15.—A special from Santa Fe states that Ricardo Alarid, who had been indicted on a charge of perjury on testimony furnished out of the charges that the company obtained coal lands by fraud, was dismissed on account of lack of evidence.

Taft Fifty-One. Cincinnati, Sept. 15.—W. H. Taft was fifty-one years old Tuesday.

Fort Worth, Sept. 15.—Mrs. S. P. Cranfills accidentally shot and seriously wounded her husband, mistaking him for a robber. Cranfills arose about 4 o'clock to get a drink and hearing a noise his wife fired in his direction, the bullet entering his side. The wife is prostrated. The husband will recover.

Log Train Wrecked. Montgomery, Ala., Sept. 15.—A special from Sampson, Ala., says: The log train of the Henderson Boyd Lumbar company was wrecked early Monday about five miles north of Sampson, killing three persons and injuring twenty others.

Mill Manager Shot. Greenville, Miss., Sept. 15.—R. C. Garner, manager of the Glen Allen oil mill at Glen Allen, was shot and probably fatally wounded by T. C. Holiday, a foreman employed at the mill. The men had had trouble before and both were under peace bonds.

Mistakes Husband For Burglar. Houston, Sept. 15.—Mrs. S. P. Cranfills accidentally shot and seriously wounded her husband, mistaking him for a robber. Cranfills arose about 4 o'clock to get a drink and hearing a noise his wife fired in his direction, the bullet entering his side. The wife is prostrated. The husband will recover.

Bryan Morning Eagle

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, SEPT. 16, 1908

Considering the money he is spending, the size of Hearst's following is surprisingly small.

Senator Jeffries Davis is the consolation prize won by the Pros in the Arkansas election.

Senator Jeffries Davis of Arkansas has got his name in the papers again by ostentatiously voting against liquor license in his county.

If the Democrats gain throughout the country in the same ratio they increased their vote in Maine, the election of Bryan and Kern will be the result.

If the tales of the doings in that gypsy camp near Houston are not exaggerated there ought to be good business for peace officers and courts down there for a while.

Keep it before the people that if Taft is elected the army will be increased 60 per cent, the expenses of the army will be increased \$60,000,000 annually and the danger of militarism will be increased in the same ratio.

Cannon says he was only joking when he said Bryan was a millionaire. He adds that he has just a modest competency for his family, but fails to give any figures. It is said that John D. Rockefeller considers himself a poor man, and possibly Uncle Joe takes a similar view of his wealth.

When travelling in airships becomes the fashion, houses will be built with the front door on top.

That spanking of Castro by Queen Wilhemina hasn't taken place yet. Possibly the shingle has been mislaid.

There is no doubt that the Republicans are in earnest this time in viewing with alarm. They are scared sure enough.

It is a good time for off color Democrats either put on the uniform and march with the regulars or go into the camp of the enemy.

The Antis claim that they have found a new argument against prohibition in Carrie Nation's statement that she will not put up at a hotel where there is a bar.

The Hearstites had a hard time to get a man to head their State ticket, but at last a Dallas man named Martin has consented to allow the use of his name. He was just in time to get on the official ballot.

"Every American is in the habit of delivering his own vote according to his own opinion," says a Washington correspondent. That is true of those who have opinions of their own, but a good many voters never had any and others sell their opinions.

It is proverbial that the only means of securing perfect agreement between any two persons is by letting one do all the thinking and the other accepting his conclusions. Roosevelt says there is and has always been perfect agreement between him and Taft. This is positive proof that Taft has no mind of his own.

Lost—One pair of mules, one black and other dark brown. One was branded E S and other S E. \$5.00 reward for return to W. M. Patten. w1

FARMERS UNION EXHIBIT.

Brazos County Will Participate in the San Antonio Fair.

Through the instrumentality of the Brazos County Farmer's Union this county will have a creditable display at the San Antonio International fair soon to open. Mr. F. W. Yeager of this city will have charge of the exhibit, which will consist of specimens of the agricultural products of this section, including upland cotton, rice, grown on Mr. Yeager's truck farm in the eastern edge of town. The exhibit will occupy a space in the Agricultural Hall 18 x 75 feet.

This is not Mr. Yeager's first experience in the line. Three years ago at the same exhibition he won first prize and two years ago he won second prize with a Brazos county agricultural exhibit.

The Farmer's Union of this county, and Mr. Yeager are deserving of high commendation for their interest and efforts in this respect.

The exhibit is now arriving here and will be shipped via the I. & G. N. to San Antonio next Monday morning.

MEETING POSTPONED.

County Farmers' Union Meets Oct. 9 and 10 Instead of 2 and 3.

The meeting of the Farmers' Union of Brazos county which was to have occurred on October 2 and 3, has been postponed until October 9 and 10. The change is made because October 3 will be "Farmers' Union Day" at San Antonio fair, and it is not desired to have the dates of this event and the county union meeting conflict.

President W. L. Edge of the Brazos county Union, states that an effort will be made to have state President Neill at the Union meeting on the 9th and 10th of October, which will be held at Steep Hollow.

SAN ANTONIO DIVORCE SUITS.

Four Hundred Pending and Others Being Filed.

San Antonio, Texas, Sept. 15.

When the district courts of Bexar county convene for the fall term in October there will be a wholesale disposition of divorce suits. Up to the present time no less than 400 divorce suits have been filed in the three district courts here and new ones are being entered on the dockets every day. Most of the suits are based on abandonment and nonsupport. A feature in divorce cases is the large number that is dismissed for want of prosecution and in which the parties bury the past and make up for another try at marital happiness. Then, too, there are many cases disposed of which are immediately followed by the marriage of one or the other of the parties to the suit to another person. It sometimes happens that before the ink on the divorce docket is dry the plaintiff in the case has been married to another. In most cases the women are the plaintiffs.

A. B. CARSON, CIVIL ENGINEER and SURVEYOR. Office with J. W. Batts. Residence Phone.....No. 287.

Accidental Killing. Seguin, Tex., Sept. 15.—Oscar Zipp, a prominent young man of Guadalupe county, while extracting a bullet from a rifle was accidentally shot in the head and killed. He was well known throughout this section and was soon to have been married.

Peculiar Fatality. Beaumont, Sept. 15.—C. N. Bagley received a fatal injury. A large scythe fell from a nail where he had just hung it, cutting a deep gash in his head. Ten stitches were taken in the wound, but it is thought the point of the blade touched the brain.

CUTTING AWAY THE NECK.

Brazos and Little Brazos Coming Closer Together. Great Damage to Plantations.

A Calvert correspondent of the Galveston News writes:

The articles in The News in reference to the overflows of the different rivers have been read with a great deal of interest by the Brazos

farmers of this community. The overflow of the Brazos River has destroyed thousands of acres of cotton and corn in this county, and a more serious proposition now faces the farmers of Robertson and Brazos counties that own land south of Lufkin, on the International & Great Northern Railroad. The Big and Little Brazos rivers at this point are now but a stone's throw apart, with nothing separating them but a sandy ridge, through which the Big Brazos is rapidly cutting. The International & Great Northern Railroad Company has spent thousands of dollars on dike work in an effort to check the big river, but has given it up and has surveyed a new right of way east of the Little Brazos.

Unless the farmers give this their immediate attention and interest the government to assist them in some manner, there will be thousands of acres of the best lands in Texas subject to overflow at every rise of the Brazos River.

Center Shots.

There is no better investment for your savings than in Texas lands. They never will be worth any less than they are today, and in most sections of the State are rising in value by leaps and bounds.—Beaumont Enterprise.

The Farmers' Union has undertaken its biggest task yet in attempting to bring about a radical change in the methods of handling the cotton crop of Oklahoma and Texas. They are antagonizing powerful interests and there is every prospect of a fight that will make history.—Denison Herald.

Probably the best cotton stalk ever produced in West Texas was brought into this city by Judge C. H. Wilkingsham, from his place near here Friday morning. The stalk is eight feet two inches high, and contains 417 bolls and forms. The entire patch is practically as good as the specimen and will probably yield at least two bales per acre. The Campbell system of dry farming did it.—San Angelo Press-News.

A young lady of good reference wishes a job in store or hotel as waitress. Experienced. Age, 23. Write or phone.

DISTRICT COURT.

Time Still Occupied With the Big Damage Suit.

Notwithstanding a most important case is on trial before the district court, there is little news of interest to be gleaned in the temple of Justice. In the case at bar there are no oratorical flights or impressive periods on the part of contesting counsel as might be expected in the trial of matters of another character. This is a damage suit and strictly a business proposition. Satisfactory progress is making, but the case is long drawn out and the witnesses from a distance are anxious to return to their homes and work.

At the court house yesterday several of them amused themselves playing "catch" with bois d'arc apples of Mock oranges, while others discussed the most efficacious method of ridding themselves of chiggers, which they gathered in large quantities while lounging on the grassy court house lawn. An East Texas exile, who is a member of the party, declares that the application of the inside of a bacon rind to the affected parts is the best remedy in the world, and The Eagle prints the result of his observation for what it is worth. It should be reliable, and may be considered as a concrete statement of what is best for this particular affliction after a lifetime of experience in the field of investigation and applied science for, as remarked above, the gentleman hails from East Texas.

In the district clerk's office, Mr. Jones was busy studying up on "Naturalization Laws," while out in the court room an attorney read a typewritten statement of something as thrilling in its profundity as Dormstocker's Logarithms of the Diapason and interested the casual visitors to the court house in about the same degree.

However, fair progress is making in the matters before the court, and it is believed the case now on trial will be concluded by next Friday morning.

AT THE GRAND.

On Monday the 21st "A Texas Ranger" will be the attraction at the Grand opera house. The play was written by a man who spent the greater part of his life on the plains and who has collected data concerning the west, which is rapidly passing beyond the stage of romance. Earnest Stout, in the days when the "Wily Redskin" was still rampant on the plains and the "bad man" held forth in all his glory, things happened, romance was made, and lives were lost.

Heroes developed whose fame has never been heralded by the press, and whose names will never go down to posterity. It all came in the day's work. Such a man as this was Jack Dallam, better known as "Fresh Water Jack." Around "Fresh Water Jack" and his adventures Mr. Stout has built the play "A Texas Ranger."

For Sale—Gentle combination saddle and harness horse, harness and runabout almost new. Dr. J. W. Cavitt. 248

who complains that his linen is never
well done up, and that all laundries
are alike. Just ask him if he has
ever tried the

Bryan Steam Laundry

"No, of course not." If he had,
he'd have a different opinion.

Clergymen Socialists.

New York, Sept. 15.—Clergymen to
the number of 161, representing
twenty-four religious denominations
and thirty-six states and territories in
the United States, besides three de-
nominations and four provinces in
Canada, have issued a manifesto to
the clergy and churches of America,
declaring their belief in socialism and
urging a searching of the scriptures
and a study of the philosophy of so-
cialism upon all who do not now agree
with them.

The signers of the manifesto an-
nounce their allegiance to the minis-
ters' socialistic conference, one of
whose objects is to show that social-
ism is the economic expression of the
religious life.

Much Lumber Burns.

Biddeford, Me., Sept. 15.—Fire
caused a property loss estimated at
\$300,000, destroyed more than fifteen
acres of lumber yards, more than a
score of buildings, several factories
and some railroad property on both
sides of the Saco river, in the cities
of Saco and Biddeford. More than
forty families were rendered homeless.

Significant Sign.

Ittabena, Miss., Sept. 15.—Night
riders visited the Morgan Supply com-
pany cotton gin near here and tacked
up a sign warning operators to gin
no more cotton. This is the third in-
stance recently of night riders posting
warning against cotton ginning in Mis-
sissippi.

Car of Dynamite Explodes.

Windsor, Mo., Sept. 15.—A car of
dynamite exploded here, destroying
the Missouri, Kansas and Texas depot.
Five persons were killed, including
Station Keeper Yake, a man named
Hall, two unidentified men, and an
unknown negro.

Agents Enthusiastic.

Seattle, Wash., Sept. 15.—Two hun-
dred members of the American Asso-
ciation of Travelling Passenger Agents
met here in their thirty-sixth annual
convention. After a short business
session the convention adjourned for
a visit to the Alaska Indian Pacific
Exposition grounds. Great enthusiasm
prevails among the agents on the pos-
sibility of travel next year. N. H.
Bohrer of St. Paul is mentioned as
the next president of the association
and Chicago the next meeting place.

New Tack Taken.

Omaha, Neb., Sept. 15.—New tack
was taken in the Rustin case by the
authorities Monday when county offi-
cials took charge of the investigation,
relegating the police to a second po-
sition in the conduct of the case. This
action was taken because of adverse
criticism directed against the police
department for failing to report cer-
tain clues because of their apparent
insignificance, but which later were
found to be of importance, fixing the
responsibility for Dr. Rustin's death.
Owing to the rewards offered for the
discovery of the pistol with which the
shooting was done several hundred
boys and school children hunted all
day Sunday over four blocks of
vacant weed covered property imme-
diately in the rear of the Rustin home,
but there were no results.

Shoots Wife Three Times.

Memphis, Sept. 15.—A spectacular
attempt at murder and suicide occur-
red at the crowded corner of Monroe
and Third streets at 6 o'clock Monday
night when Mose Cook, forty-five years
old, and insurance clerk, shot three
bullets into his wife and attempted to
kill himself. With his revolver in
his mouth and repeatedly pulling the
trigger, his life was saved only by the
fact that all of the cartridges had
been exploded. The man coolly start-
ed to reload the weapon when a by-
stander seized a club and felled him
to the pavement. The woman was tak-
en to a hospital where she lies in a
precarious condition. The tragedy
was witnessed by hundreds of people.

Republicans Lost Only Legislator.

Little Rock, Sept. 15.—Returns from
the state election indicate Donaghey,
Democrat, for governor has a majority
of 50,000 over Worthington, Repub-
lican.

The Republicans lost the only rep-
resentative they had in the senate and
are without representation in the
house. Twenty-seven counties in the
state, now prohibition, have been car-
ried by the anti-prohibitionists, with
seventeen now "wet." The entire
Democratic state ticket is elected,
with National Committeeman Tucker
leading the ticket.

Opened by some most cases the
cases are the plaintiffs.
